

Invitation to the Amphitheatre Session:

SUSTAINABLE DEVELOPMENT AND ITS FINANCING: THE USE OF COUNTRY-LED RESULTS FRAMEWORKS

Wednesday 30 November 09.45 – 10.30

Most countries have development plans to which results are attached: the country results frameworks. But what makes a results framework function? And how are countries paying for achieving these results?

The previous two years, 20+ countries in three regions have discussed these and other questions, and they have come up with a series of suggestions for the Global Partnership to consider. These suggestions will be introduced in a short video and subsequently discussed among a group of high level officials from all parts of the world.

Panelists of this session
