

INNOVATION RESIDENCY PROGRAM:

The one-stop-shop to entering Tel Aviv's Startup Ecosystem

Interested in getting a taste of Tel Aviv? Powered by Tel Aviv Global, Innovation Residencies are designed to help startups as well as individual entrepreneurs immerse themselves in Tel Aviv's Startup Ecosystem - ranked second best in the world to the Silicon Valley - in order to launch, grow and excel without having to worry about housing, a workspace, or how to grow their network - we take care of it all.

Interested entrepreneurs can apply to participate in the program for a period of 1 week and up to 3 months. Tel Aviv Global and its English speaking staff are committed to supporting and encouraging international entrepreneurs in maximizing their time in Tel Aviv. When they return home, they take their experiences, network, and the best practices they gain with them.*

STARTING UP IN TEL AVIV HAS NEVER BEEN SO EASY

Innovation Residents are provided with the following:

SERVICES:

- Support with the visa process and all the practical information needed for your time in Tel Aviv.
- Tailored advice to help Innovation Residents network and best utilize Tel Aviv's Startup Ecosystem including investors, VCs, industry-experts, accelerators, and more.
- Access to dozens of meet-ups, workshops, hackathons, and other events that take place 24/7 in Tel Aviv.

HOUSING:

- Accommodation in furnished apartments in the best parts of Tel Aviv.

WORKSPACES:

- Round-the-clock access to one of Tel Aviv's most sought after co-working spaces, The Library, and its community of Tel Aviv entrepreneurs.
- 24/7 Wifi throughout the City of Tel Aviv makes every space a workspace here.

APPLY NOW!

The program includes housing, a seat in a top-level co-working space, logistics, and one-on-one consultations with an expert in the ecosystem. Please inquire for costs.

FOR FURTHER INFORMATION ON THIS PROGRAM PLEASE CONTACT: gruber_n@tel-aviv.gov.il

**We welcome all potential Innovation Residents but we strongly encourage applicants in the urban sphere, whose technology is inclined towards improving urban life. Such startups will be considered for the opportunity to access the Tel Aviv Yafso Municipality's data and for adoption of a pilot by the Municipality.*
